

Daniel de Souza Neris, Senior Full Stack Developer

Dubai, United Arab Emirates, +971505104408, danielneris01@gmail.com

LINKS	Portfolio , LinkedIn		
PROFILE	Senior Full Stack Developer with 7+ years of experience building robust web applications across the stack using React, Node.js, and TypeScript. Proficient in designing REST APIs, database architecture, and modern frontend interfaces with a focus on usability and performance. Comfortable working in Agile environments, shipping features rapidly, and contributing across product, DevOps, and frontend/backend layers.		
EMPLOYMENT HISTORY			
2025 — Present	Senior Software Engineer, Nova Information Technology	Dubai	
	Building backend services in Node.js for KYC and compliance applications. Integrating external identity verification services and handling secure customer data.		
2022 — 2025	Principal Software Engineer, Zuvia	Brazil	
	Co-founded and led all tech initiatives at a tokenization startup. Architected and deployed a real estate investment platform that tokenized over \$75M in digital assets and served 5,000+ users, integrating Solidity smart contracts, investor dashboards, and secure partner onboarding.		
2024 — 2025	Senior Software Engineer, SHSquads	Brazil	
	Delivered scalable backend systems and mobile features for fintech clients using Node.js and React Native, with fast paced delivery under short term contracts and agile team rotations.		
2021 — 2022	Lead Software Engineer, SkyDan	Brazil	
	Directed Web3 architecture for a gamified NFT platform. Built smart contracts, wallet authentication, and modular backend infrastructure to support token based access control and blockchain-integrated mechanics.		
2019 — 2021	Software Engineer, Live On Solutions	Brazil	
	Built and maintained white-label fintech systems with custom admin dashboards, payment API integration, and secure backend logic.		
2018 — 2018	Software Developer, Amais Terceiro Setor	Brazil	
	Developed internal tools for data management and reporting in the non-profit sector using PHP and MySQL.		
EDUCATION			
2025	Bachelor's in Systems Analysis and Development, Descomplica Faculdade	Brazil	
2024 — 2024	Intensive English Programme, Stellenbosch University	South Africa	
	Web Development, Etec Comendador João Rays	Brazil	
SKILLS	React	Microservices	
	Node.js	Next.js	
	TypeScript	Express.js	
	MongoDB	CI/CD	
	PostgreSQL	Agile
